

## Big Moose Camp Resort

For nearly one hundred years, the Big Moose Camp Resort has been a well-known business in our community. It was big news when, in February 2022, Claude and Nicky Levasseur purchased Big Moose Camp Resort from its previous owners.

While known around the community prior to purchasing Big Moose, many do not know that Claude's and Nicky's families are originally from Corbeil. Early retirement gave them the opportunity to fulfil Claude's dream of owning a campground similar to the one he grew up on. That experience on a campground, as well as his years as an entrepreneur, made Claude a jack of all trades. Big Moose is family operated and Claude and Nicky hope to hand the business down to the next generation.

Big Moose has fourteen cottages and three trailers, one hundred beds in total, all with a beautiful view of Lake Nosbonsing and immediate access to nature. In addition to an excellent beach and dock, Big Moose has available many amenities, including firewood, kayaks, boat rentals, mini putt, volleyball, horseshoe pit, a children's playground, HD TV, and internet service.

Rentals are available all year. During the summer, each rental is for a minimum of one week (Saturday to Saturday); during autumn through the spring, each rental is for a minimum of two days. During the winter, Claude and Nicky offer an ice fishing package so fishermen can stay warm while enjoying the outdoors.

Big Moose has a stellar reputation. Guests have been returning year-in and year-out, some even for fifty-four years.

Claude and Nicky are looking in the future to expand their business so as to offer venue rentals for weddings, retirements, and birthdays.

Openings are rare, so book well in advance!
