The purpose and effect of the proposed amendments to the East Ferris Official Plan and Zoning By-law 2021-60 are to amend policy sections related Trout Lake within these documents.

The proposed policy amendments are based on a joint Trout Lake Management Study completed in coordination with regional partners including The City of North Bay and the North Bay-Mattawa Conservation Authority.

The intent of the policy amendments are to make changes to East Ferris planning documents that are applicable to the shoreline of Trout Lake and major inflowing streams. These policies focus on development/re-development best practices and establish a new policy area referred to as the “Trout Lake Influence Area”. Limited additional lot creation would also be permitted through these policy amendments.
